PROFESSIONAL SUMMARY

Aspiring DevOps Engineer with hands-on experience in AWS Cloud, Linux, Terraform, Docker, Jenkins, Ansible, Git, and GitLab CI/CD through internships and real-world projects. Strong foundation in Infrastructure as Code (IaC), CI/CD automation, cloud infrastructure, and Linux administration. Passionate about building secure, scalable, and automated systems while continuously learning modern DevOps practices.

TECHNICAL SKILLS

- **Cloud:** AWS (EC2, VPC, IAM, S3, Route 53)
- **Infrastructure as Code:** Terraform, Ansible
- **CI/CD:** Jenkins, GitLab CI/CD, Pipeline Automation
- **Containers & Orchestration:** Docker, Docker Compose, Kubernetes
- **Version Control:** Git, GitHub, GitLab
- **Operating Systems:** Linux, Windows
- **Scripting:** Python, Bash / Shell Scripting
- **Web Server:** Nginx
- **Databases:** MongoDB, MySQL

EXPERIENCE

DevOps & AWS Cloud Intern | Technogeeks | Mar 2026 – Aug 2026

- Assisted in provisioning AWS cloud infrastructure using Terraform and Infrastructure as Code (IaC)
- Automated Linux server configuration and application deployment using Ansible playbooks
- Built CI/CD pipelines using Jenkins and GitLab CI/CD to streamline deployment workflows

Python Developer Intern | Spark IT Training Institute | Sept 2025 – Jan 2026

- Developed Python applications and REST APIs integrated with MySQL and MongoDB
- Automated routine tasks using Python scripts and Git-based version control
- Collaborated on backend development following software development best practices

PROJECTS

AWS DevOps Automation Platform

Technologies: AWS, Terraform, Jenkins, Docker, Docker Compose, Ansible, Git, GitLab CI/CD, Linux, Nginx

- Designed AWS infrastructure using Terraform with reusable Infrastructure as Code (IaC) modules
- Built automated CI/CD pipelines using Jenkins and GitLab CI/CD for application deployment workflows
- Containerized applications using Docker and Docker Compose while configuring Nginx as a reverse proxy

Food Delivery Management System (Final Year Academic Project)

Technologies: MongoDB, Express.js, React.js, Node.js

- Developed a full-stack food ordering platform using the MERN stack
- Implemented user authentication, REST APIs, and responsive dashboards
- Designed database operations for efficient user, menu, and order management

EDUCATION

- **B. Tech,** Computer Science & Engineering — Matsyodari College of Engineering, Jalna | 2022–2025 | 71%
- **Diploma,** Computer Science — MIT Polytechnic, Chhatrapati Sambhajanagar | 2019–2022 | 82%
- **State Board of Secondary Education** — Saint Meera English School, Chhatrapati Sambhajanagar | 2019 | 65%

CERTIFICATIONS

- **DevOps & AWS Cloud Certification** — Technogeeks
- **Python Developer Certification** — Spark IT
